

Farverne: på Hinckley modellerne, (September 1990) ses på skemaet nederst på siden.

Farven er registreret på stelnummeret, så hav ALTID dit stelnummer klar når du skal bestille farver, eller farvede dele. Hav det også når du bestiller reservedele. Vin nummeret er nok (de sidste 7 tal i stelnummeret).

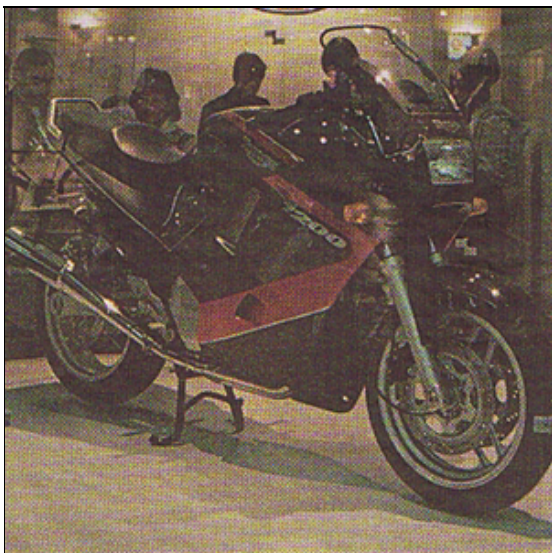

Der kan ikke pt, leveres litervis af maling, fra Hinckley, men kun reparationsstifter.

Listerne kan printes ud.

Hinckleys første Triumph logo.

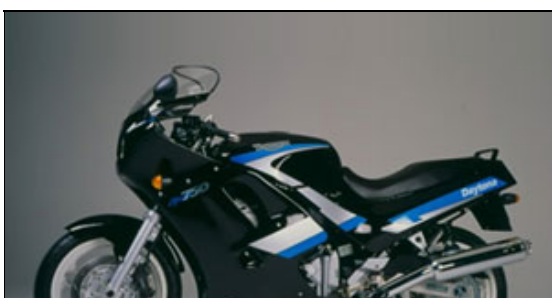

Meget Tysk i designet. Ikke nær så smukt som det gamle.

Når de nu laver en Twin på 1597cc
hvorfor laver de så ikke en paraleltwin hvor
stemplerne følges, i stedet for det elendige
L... som samtidigt lyder ad H..... Til.
Ja undskyld mig, men forestil jer en
Bonneville med 1597cc kunne det lyde af
noget!!

Den farve de nu kalder Pacific Blue ligner
overhoved IKKE Pacific Blue gad vide hvad
de tænker på? Men de syntes nok at det
lyder fint og farven ER fin, men det er bare
ikke Pacific Blue.

Der er nu kommet et 1700cc opboringskit.
Så kommer oplysningerne på motoren til
at passe.
Her har de moget blærende skrevet 1700 i
stedet for 1600.
